

FREE Workshop: Creating a Life Your Child Wants

An interactive, hands-on session tailored for caregivers and people with disabilities, where you can take away strategies, Toronto-specific resources and ideas for a plan. Parents and/or caregivers can meet and network with others who are on a similar journey.

Discussion points will include:

- How can you use information and resources to help achieve your child's dream?
- How can you use a support network/support circle to help achieve your child's dream?
- What are examples of goals that were achieved by other families? Talk to our panel of self-advocates and caregivers about their planning experiences!
