Are you an employer who regularly hires people with physical disabilities?

Consider participating in a study about how to provide accommodations for people with physical disabilities.

#### **What is this study about?**

We want to understand your experiences in providing workplace accommodations and areas that you need help with in providing accommodations to people with physical disabilities.

#### **Who can participate?**

We are looking for:

- Employers, managers, and human resources personnel who intentionally hire young people (aged 15-30) with physical disabilities and who have best practices to share regarding recruiting, retaining and providing accommodations

#### **What's involved?**

Participants will be asked to take part in:

- 1 interview (approx. 1 hour) over the phone or in person

#### **What are the risks and benefits of participating?**

- A benefit of participating includes helping us to learn about disability disclosure and accommodation processes to better meet the needs of youth with disabilities.
