Holland Bloorview
Kids Rehabilitation Hospital

Referral Criteria - Brain Injury Rehab Team (BIRT) Outpatient Concussion Services

Ambulatory Care

It is important to seek medical help as soon as possible following a concussion. If symptoms **persist for 4 weeks**, and your child is **unable to return to full workload** at school or **unable to return to sports,** a family physician may refer them to our BIRT outpatient services for **consultation**.
Concussion services offered may include medical follow up, occupational therapy, physiotherapy and social work. Services are individualized and depend on your goals or priorities. We also offer concussion education through Concussion and You.

In order to be eligible for this service a **Physician referral is required** and the client must meet **all** of the following criteria:

- Live in the Greater Toronto Area where similar services are not available
- Is between the ages of 3 months and 18 years
- Has a diagnosis of a concussion
- Is **4 weeks post-concussion** with persistent concussion symptoms and unable to return to school or sports
- Is willing to participate in setting goals with the support of the rehab team
- Has family members willing to become involved in the therapy process

The client/family must be aware of the referral
