

TELLING MY TALE: Understanding the Life Story of Young People with Muscular Dystrophy & Cystic Fibrosis

Are you a young person with Cystic Fibrosis or Muscular Dystrophy or Duchenne's Muscular Dystrophy between 14–29 years of age? Would you like to write and illustrate a storybook to tell us the story of your life?

What is this study about:

In this study, people with DMD/MD & CF will be asked to draw and write a storybook for the purposes of educating us on their lived experience.

Who can participate?

We are looking for...

- Participants between the ages of 14-29 with Muscular Dystrophy or Duchenne's Muscular Dystrophy or Cystic Fibrosis

Participants will receive a small token of appreciation to thank them for their time.
