

FREE WORKSHOP

Creating Sensory and Play Spaces at Home

An interactive, hands-on session for caregivers of children with disabilities. You will learn about strategies, resources and ideas to help you create inexpensive sensory spaces and play opportunities for you and your child.

Looking for ideas on how to support your child's play based and sensory needs?

- Learn about hands-on fun with easy to make, homemade activities that you can recreate at home.
- Get some ideas on how to use everyday objects and experiences to transform an empty room, corner, bedroom or even bathroom into a relaxing space/sensory corner.

In this workshop, you will understand:

- How to engage in open-ended, child directed play with your child.
- The different types of play and how to support them.
- How to create a play friendly environment that will help you to maximize your sensory corner.
- How to put the 'sense' in your sensory corner.
