

ROBOTICS™

Powered by

Holland Bloorview
Kids Rehabilitation Hospital

The Robots are here!

What is it all about?

A group program that will open new opportunities for kids to participate in a ground-breaking robotic experience. This program provides an opportunity to develop and refine decision-making and socialization skills, all while making friends. Participants will work hands on with LEGO® Robotics in interactive building activities.

Who is it for?

Young people with a disability who are aged 6-14 and are interested in science, technology, engineering and/or math (STEM). Participants must be interested and able to safely and successfully participate in a structured 2-hour large group program. Participants must have already identified a way of accessing a computer and/or their speech generating device. No experience required.

<u>Program</u>	<u>Ages</u>	<u>Time/Dates</u>
