	<p><b>Designing quality survey questions</b></p> <p><b>Summary</b> Designing Quality Survey Questions shows readers how to craft high quality, precisely-worded survey questions that will elicit rich, nuanced, and ultimately useful data to help answer their research or evaluation questions. The authors address challenges such as language preferences for standard demographic questions (e.g. How to ask about gender), creative question design to keep respondents engaged and avoid survey fatigue, web-based survey formats, culturally-responsive survey design, and factors that influence survey responses (memory, social desirability, etc.). Numerous examples of questions illustrate each identified principle of question construction.</p> <p>Robinson, Sheila B., Leonard, Kimberly Firth, Thousand Oaks, California : SAGE Publications, Inc., 2019.</p>	<p>HM538 .R62</p>

	<p><b>Disability visibility : twenty-first century disabled voices</b></p> <p><b>Summary</b> A groundbreaking collection of first-person writing on the joys and challenges of the modern disability experience: <i>Disability Visibility</i> brings together the voices of activists, authors, lawyers, politicians, artists, and everyday people whose daily lives are, in the words of playwright Neil Marcus, "an art . . . an ingenious way to live." According to the last census, one in five people in the United States lives with a disability. Some are visible, some are hidden--but all are underrepresented in media and popular culture. Now, just in time for the thirtieth anniversary of the Americans with Disabilities Act, activist Alice Wong brings together an urgent, galvanizing collection of personal essays by contemporary disabled writers.</p> <p>Wong, Alice New York : Vintage Books, a division of Penguin Random House LLC, 2020.</p>	<p>HV1552.3 .D57</p>
	<p><b>Disability studies : a student's guide</b></p> <p><b>Summary</b> This textbook brings together a wide range of expert voices from the field of disability studies and the disabled people's movement to tackle the essential topics relevant to this area of study. From the outset disability is discussed from a social model perspective, demonstrating how future practice and discourse could break down barriers and lead to more equal relationships for disabled people in everyday life.</p> <p>Cameron, Colin London ; Thousand Oaks, Calif. : SAGE, 2014.</p>	<p>HV1568.2 .D57</p>
