

Are you a caregiver of a child with a physical disability?

We want to hear from you!

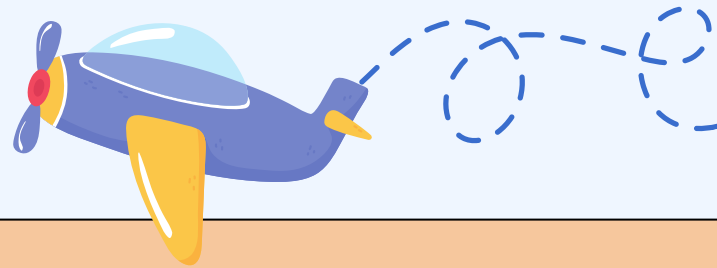

What's this study about?

The goal is to explore the air travel experiences of families of children and youth with physical disabilities.

Study title:

Air transportation experiences of caregivers of children and youth with physical disabilities: A survey study

Who can participate?

Parents/caregivers who:

- Care for children with physical disabilities (e.g., spina bifida, cerebral palsy, amputation, etc.)
- Are aged 18 years or older (children can be any age)
- Live in Canada
- Have experience traveling via commercial airlines with their child(ren) with a physical disability
